

11. Confidence Interval for BLEU Difference

Reports the range within which the true improvement lies.

$$\text{CI}_{95\%} = [\delta_{(0.025)}^*, \delta_{(0.975)}^*]$$

Our result: $\Delta\text{BLEU} = +0.33$, $\text{CI} = [+0.136, +0.530]$, $p = 0.001$
